

Untitled

1. What are the first 10 amendments to the U.S. Constitution commonly called? No, they are not the Ten Commandments.
2. What was the event and its date that is normally recognized as the beginning of World War 2 in Europe? And, no, Pearl Harbor is not in Europe.
3. What is the capital of Nevada? No, it's neither Las Vegas or Area 51.
4. What two former U.S. Presidents died on the same day?
5. Referring to Number 4, what was the date?
6. Who said, "Those who cannot remember the past are condemned to repeat it."?
7. A person stands 100 feet away from the base of an antenna tower on a flat field, looks up 66 degrees and sees the top. How tall is the tower? Think trig functions, tangent? Opposite over adjacent?
8. Quick. Think back to your driver education class. How fast is a car moving in feet per second when it's traveling at 60 miles per hour?
9. The wingspan, or distance from wingtip to wingtip, of a B-29 is how many feet?
10. Approximately how many people, military and civilian, were killed in WW2?
